TECHNICAL SKILLS

Strong: HTML, CSS, jQuery, JavaScript, AJAX, Node/Express, Git, Bootstrap, Materialize

Experienced: React, MySQL/SQL, MongoDB, Handlebars, GreenSock, Photoshop/Illustrator

APPLICATIONS DEVELOPED

Plantr - *Full Stack Developer*   **LIVE** | **GITHUB**

- An easy to use houseplant app for new/busy plant owners. Users can schedule recurring plant care reminders and even export them to their iCalendar.
- Created several react components, routing and the logic behind scheduling recurring care reminders and adding/deleting reminders. Also responsible for the application's layout and design.
- Developed using MongoDB, Express, Node, React and Bootstrap.

Plaudit! - *Front End Developer*   **LIVE** | **GITHUB**

- A workplace application that focuses on encouraging a supportive and uplifting work environment through peer recognition.
- Served as UI/UX designer and front-end developer in our team of five to create the overall design and layout of website
- Utilized GreenSock for animations, Materialize for responsive layout/forms/modal, Handlebars for templating/displaying data and HTML/CSS/jQuery to create a custom design. Created Plaudit! badges using Adobe Illustrator.

Rainbow Scraper - *Full Stack Developer*   **LIVE** | **GITHUB**

- This full stack app scrapes the web for rainbow-colored clothing and accessories.
- Developed using HTML/CSS/jQuery, AJAX, Node, Express, MongoDB, Handlebars and Materialize.

Between You & Me - *Front End Developer*   **LIVE** | **GITHUB**

- An easy to use, mobile-friendly app that lets friends find places they want to go in just a few clicks.
- Served as UI/UX designer and front-end developer on a team of four to create the overall design and layout of website.
- Utilized Bootstrap for responsive layout/forms/modals, jQuery for the mobile sliding navigation, Snazzy Maps to customize the Google Maps theme and HTML/CSS/jQuery to create a custom design.

PROFESSIONAL EXPERIENCE

Allstate Insurance Company, Northbrook, IL - *Pricing Technician Consultant*   2015 - Present
Previous Titles: *Pricing Technician Analyst, Sr. Pricing Technician Analyst*

- Act as a liaison between business and IT teams during pricing and product change projects. Collaborate with developers and UX designers to develop project requirements, perform system testing and ensure business goals are met.
- Train new hires, delegate and review deliverables for more than 60 projects annually.
- Recognized by management and peers for contributions on the successful implementation of a complex pricing pilot project. In addition to usual responsibilities, also developed and documented new processes to aid the Technician team during subsequent rollouts.

Allstate Insurance Company, Northbrook, IL - *Sr. Agency Support Representative*   2013 - 2015
Previous Title: *Agency Support Representative*

- Trained new hires, resolved escalated complaints, independently managed inboxes for agent compensation and billing inquiries

Color Me Mine, Glenview, IL - *Assistant Manager*   2012 - 2013

- Trained new hires, created custom designs for special orders, managed inventory and kiln firing schedule
